

Week of February 23-March 1

Sunday, March 1-7:00 AM

Rain today, off-and-on, up to 1.5 inch with heaviest rain tonight. Rain Monday up to 1/2 inch. Rain likely Tuesday up to 3/4 inch and Wednesday up to 1/10 inch. Chance of rain Thursday up to 1/2 inch and Friday up to 1/10 inch. Flooding possible in flood prone areas today, but off-and-on nature of storm should reduce risk of flooding.

Saturday, February 28-8:00 AM

Rain Sunday up to 1inch, possibly starting tonight. Rain likely Monday up to 1/4 inch and Tuesday up to 1 inch. Rain possible Wednesday up to 1/10 inch, Thursday up to 1 inch and Friday up to 1/4inch. Flooding possible in flood prone areas starting tonight through Sunday.

Friday, February 27-8:00 AM

Chance of very small amounts of rain Saturday. Rain Sunday up to 1.25 inch and Monday up to 1/4 inch. Rain likely Tuesday up to 1 inch, Wednesday up to 1/2 inch and Thursday up to 1inch. No current flooding risk.

Thursday, February 26-8:00 AM

Chance of very small amounts of rain today. Rain likely Saturday up to 1/4 inch. Rain Sunday up to 1.5 inch. Chance of very small amounts of rain Monday. Rain likely Tuesday up to 3/4 inch. Rain possible Wednesday up to 1/4 inch. No current flooding risk.

Wednesday, February 25-8:00 AM

Rain likely tonight up to 1/4 inch. Chance of very small amounts of rain Thursday. Rain likely Saturday up to 1/4 inch. Rain Sunday up to 1 inch. Rain possible Monday and Tuesday up to 1/2 inch. Very low current risk of flooding.

Tuesday, February 24-8:00 AM

Slight chance of light showers with some lingering clouds. Increasing showers late tomorrow and into Thursday. Another break on Friday but then more rain Saturday, lasting well into next week. Multiple systems over the weekend bringing more rain. The first system should bring rain Saturday afternoon with showers lingering into early Sunday before another, potentially very wet storm enters late in the evening and into Monday, possibly bringing another inch of rain by the end. Low risk of flooding.

Monday, February 23-7:00 AM

Moderate rainfall forecasted for today, up to 1/4 of an inch. All local creeks are receding at this time. Low risk of flooding today. Small chance of rain Tuesday and Wednesday. Thursday or Friday likely next chance of rain up to 1/2 inch.
