Re: Houseboat at Markley Cove Marina

Thinking this might be a great opportunity for the interns to see a dirty watercraft.

The houseboat shown on the left was parked at Markley today. From a distance, the hull looked rather dirty so I decided to take a closer look. I assume it was removed from Lake Berryessa, but did not have time to ask.

The boat has several “things” on it that will make your heart stop for a moment. I did not see any mussels! That said, I was in a hurry and did not have permission to really examine the watercraft. I did not conduct a complete survey.

I suggest you might ask if it’s okay for the interns to take a look at the houseboat, simply to see a dirty watercraft. I will be out of town and will not be able to join the group if you decide to have the interns take a look. Have fun.

Thanks,

Ken
