

SOLANO HCP/NCCP SCIENCE ADVISORS

Reed Noss is the lead scientist for the Science Advisors. Prof Noss is a conservation biologist with the University of Central Florida, Department of Biology. Prof. Noss has a PhD in wildlife ecology from the University of Florida. He was recently president and chief scientist of Conservation Service Inc. in Corvallis Oregon.

Richard Arnold is an entomologist whose specialty is terrestrial invertebrates. Dr. Arnold is the founder and president of Entomological Consulting Services and received his PhD in entomology from the University of California, Berkeley.

Sharon Collinge is a specialist in vernal pool plant ecology. Prof. Collinge is an assistant professor at the Department of Environmental Population and Organismic Biology and Environmental Studies Program at the University of Colorado, Boulder. Prof. Collinge received her PhD from Harvard University.

Richard Grosberg is a specialist in vernal pool invertebrates. Dr. Grosberg is the director of the UC Davis Center for Population Biology and is a professor of Evolution and Ecology at the University of California, Davis. Dr. Grosberg received his PhD from Yale University.

Roland Amundson is a specialist in soil ecology. Prof. Amundson is a professor of Pedology, Division of Ecosystems Sciences in the Department of Environmental Science, policy and Management at the University of California, Berkeley. Prof. Amundson received his PhD from the University of California, Riverside.

Brenda Grewell is a specialist in marsh ecology. Ms. Grewell is a post graduate researcher at the University of California, Davis. She is a PhD candidate of ecology at the University of California., Davis.

Philip Northern is a specialist in hydrology. Prof. Northern is a professor of biology at Sonoma State University. Prof. Northern received his PhD from the University of Wisconsin, Madison.

Lester McKee is a specialist in hydrology. Dr. McKee is an environmental scientist/watershed program manager with the San Francisco Estuary Institute. Dr. Northern received his PhD from Southern Cross University in Australia.

Christina Swanson is a specialist in Delta Smelt and Sacramento Splittail. Dr. Swanson is a senior scientist/fisheries scientist with the Bay Institute of San Francisco. She received her PhD on biology from the University of California, Los Angeles.

Michael Bradbury is a specialist in ornithology. Mr. Bradbury is a staff environmental scientist with the California Department of Water Resources. He has a Bachelor's Degree in environmental biology from California State University, Chico.

Ronald Yoshiyama is a specialist in salmonids. Dr. Yoshiyama is a staff researcher with the Department of Wildlife, Fish and Conservation Biology at the University of California, Davis. Dr. Yoshiyama received his PhD from Stanford University.
