

The Solano County Water Agency
invites applications for
STREAMKEEPER
for the
Lower Putah Creek Coordinating Committee

THE POSITION

The Solano County Water Agency (SCWA), on behalf of the Lower Putah Creek Coordinating Committee (LPCCC), is seeking an innovative, progressive, and knowledgeable Streamkeeper. The Streamkeeper, in many respects the functional equivalent of a Watershed Restoration Program Manager, serves as the executive director of the LPCCC and is responsible for a variety of administrative and operating functions, including but not limited to the development and management of restoration projects; acquisition and management of grant funds; coordination of technical studies; and outreach to landowners, government agencies, and other public and private groups.

SCWA and LPCCC

SCWA is an independent special district created by the California Legislature for the conservation, development, control, and use of water. The Agency boundary includes all of Solano County and portions of the University of California – Davis campus in Yolo County. SCWA is responsible for the operation and maintenance of the United States Bureau of Reclamation’s Solano Project, which includes Lake

Berryessa, Monticello Dam, the Putah Diversion Dam and Putah South Canal. Monticello Dam

and the Putah Diversion Dam are located on Putah Creek. Additional information about the Solano County Water Agency can be found at www.SCWA2.com.

The LPCCC was formed in 2000 as part of the Putah Creek Settlement Agreement (more commonly known as the Putah Creek Accord). The Putah Creek Accord addresses a number of water management issues pertaining to Putah Creek, including the maintenance of stream flows in Lower Putah Creek. The LPCCC was created to protect, monitor, and enhance the resources of lower Putah Creek, within the framework of the Putah Creek Accord. SCWA is a member of the LPCCC. Other LPCCC members include the Putah Creek Council, City of Davis, Regents of the University of California, Solano Irrigation District, Maine Prairie Water District, and the cities of Vacaville, Fairfield, Vallejo and Suisun City. Additional information about the LPCCC can be found at <https://www.scwa2.com/lower-putah-creek-coordinating-committee/>.

EMPLOYEE BENEFITS

RETIREMENT - The Agency participates in CalPERS retirement program. “New” CalPERS employees have a defined benefit formula of 2% at age 62 and pay a contribution rate of 50% of the normal costs. “Classic” CalPERS employees have a defined benefit of 2% at 55 and the Agency covers both the employee and the employer share of costs. The Agency is not enrolled in Social Security.

HEALTH BENEFITS – The Agency has a cafeteria plan for medical insurance (through CalPERS). The Agency covers up to 80% of the full family Kaiser plan medical insurance costs (other health plans available). 25% of any unutilized benefits in the cafeteria plan are reimbursed to the employee at the end of the calendar year. The Agency pays the cost of the following benefits:

- Dental Insurance for employee and dependents.
- Disability Insurance for the employee.

COMPENSATION

\$110,351 - \$134,132

For more information regarding SCWA’s compensation and benefits package please contact Sandra Willingmyre, Accountant II (707) 455-1101 or sandra@scwa2.com.

- CalPERS Long-Term Care Insurance for the employee up to \$800 per year (program is currently suspended by CalPERS).
- Post-Retirement Health up to \$12,500 per year once vested.

LEAVE - Regular full-time employees accrue vacation leave at the rate of 15 day per year. After three (3) years employees accrue vacation leave at the rate of 20 days per year. Regular full-time employees accumulate 12 sick leave days per year. Management employees receive 48 hours of additional paid leave per year.

HOLIDAYS – Regular full-time employees receive 13 paid holidays per year.

THE IDEAL CANDIDATE

Successful candidates will have extensive, high-level experience with a proven ability to do the following:

- Manage and lead a diverse organization
- Work well with the public, staff, consultants, landowners, and officials at all levels of government, including elected officials
- Develop and manage projects, budgets, schedules and funding proposals
- Obtain and manage grant funds
- Exercise sound, independent judgement
- Analyze complex problems and implement creative solutions
- Plan, implement, monitor and adapt restoration strategies.

- Recognize and effectively manage ever-changing priorities, needs, and pressures placed on the organization
- Demonstrate keen interpersonal skills
- Be responsive to challenges and opportunities

Ideal candidates will have the following education and experience:

Equivalent to graduation from an accredited four-year college or university with major coursework in ecology, biology, environmental planning, geology, horticultural or a related field AND seven (7) years of experience performing watershed restoration activities. Experience working with a Board of Directors is highly desirable. Possession of a graduate degree and/or related certification(s) may be counted toward the required experience.
